Re: Software Engineer I (Bangalore), Ashby 3763c791

Dear AiPrise Hiring Team,

I am applying for Software Engineer I in Bengaluru. The posting asks for 0–2 years shipping production systems, a backend language, REST APIs, PostgreSQL/MySQL, and Docker/CI. I have 2 years 2 months of production Python FastAPI REST APIs, PostgreSQL and MySQL, Docker, and GitHub Actions CI/CD, plus React/TypeScript. B.Tech CSE (AI), CGPA 7.7, 2020–2024.

Go, Java, Node, Kafka, MongoDB, and KYC/AML/sanctions workflows are ramps. I am not claiming a compliance-vendor orchestration background. I will relocate to Bengaluru. Full-time.

Sincerely,

Atul Banyal
