Hiring Team

Canonical

Re: Python Engineer, 5143074

Dear Canonical Hiring Team,

I am applying for Python Engineer (5143074), home-based worldwide. The posting wants designed, modern, maintainable Python and Linux (Debian/Ubuntu preferred). I have 2 years 2 months of production Python FastAPI, Docker, Kubernetes, and GitHub Actions on Linux-hosted services. B.Tech CSE (AI), CGPA 7.7.

Debian/Ubuntu package administration is a ramp — I am not claiming distro packaging work. I can travel twice a year for Canonical events. Full-time, remote from India.

Sincerely,

Atul Banyal
