Re: Software Engineer I, Bangalore, Ashby 02b11bae

Dear LG Ad Solutions Hiring Team,

I am applying for Software Engineer I in Bangalore. The posting is early-career: Python or JavaScript, MySQL/Redis, AWS/Kubernetes curiosity, and React as a plus. I have 2 years 2 months of production Python, JavaScript/TypeScript, MySQL, Redis, REST APIs, Docker, Kubernetes, AWS, and React. B.Tech CSE (AI), 2020–2024.

Scala, Spark/Databricks, and connected-TV ad serving are ramps. I will relocate to Bengaluru. Full-time.

Sincerely,

Atul Banyal
