## PROFESSIONAL EXPERIENCE

### Software Developer — Skyach Software Solutions Pvt. Ltd.

Mohali, India

June 2024 – August 2026

- Wrote production Python (FastAPI) REST APIs with MySQL models and request validation for a tree care platform.
- Shipped GitHub Actions CI/CD that built Docker images and rolled them to Kubernetes for a live cryptocurrency exchange (1,000+ DAU).
- Debugged deploy and runtime failures on containerized services (failed pipelines, API errors, SQL) rather than handing off after merge.
- Integrated third-party APIs (Binance, Kraken, Ethereum/Bitcoin) with attention to correctness and failure modes.
- Led a construction management Rails product (five modules) in a Git-review team; comfortable with async written updates.
- Used Shell Script, Git, and AWS-adjacent hosting daily; open to Canonical's twice-yearly travel for internal events.
