

Atul Banyal

Full-Stack Engineer | Node.js · JavaScript · REST APIs · React.js · HTML/CSS

Vadodara, Gujarat, India · Open to Bengaluru / Hyderabad / Pune / Chennai

atulbanyalreal@gmail.com · linkedin.com/in/atul-banyal-6629a2185

SUMMARY

Software Engineer with 2 years 2 months delivering full-stack web apps: production React.js/Next.js UIs plus Node.js/Express REST services (personal production-style stack). Strong HTML/CSS, JavaScript, async API work, Git, and troubleshooting. B.Tech Computer Science (4-year degree).

SKILLS

Must-have alignment: Node.js, JavaScript, HTML/CSS, REST/AJAX-style async requests, Git, troubleshooting

Production UI: React.js, Next.js

Also used: Ruby on Rails, MongoDB, Docker, Kubernetes, AWS, Jest, Webpack-style frontend builds

EXPERIENCE

Software Engineer — SkyAch Software Solutions Pvt. Ltd.

Full-stack product engineering for fintech / exchange clients

Jun 2024 – Aug 2026

- Shipped React.js/Next.js frontends and REST backends used by 1,000+ daily users; owned UI bugs, API contracts, and production follow-up independently.
- Wrote cross-browser HTML/CSS/JavaScript, documented behavior for teammates, and took part in code reviews — the same SME-style delivery Deloitte lists for Engineer I.
- Debugged async request failures and partial-page update issues rather than handing them off after merge.

PROJECTS

Node.js microservices + Next.js client (personal)

- Built Express/TypeScript services (auth, tickets, orders, payments) with MongoDB, JWT cookie sessions, and REST endpoints.
- Implemented a Next.js/React client and Jest API tests; used Git throughout.

EDUCATION

B.Tech, Computer Science and Engineering (AI specialization)

ITM SLS Baroda University, Vadodara — BE/B.Tech equivalent

2020 – 2024
