HP Inc.

Re: Cloud Automation & Platform Engineer, job 3167675, Bengaluru

Dear HP Hiring Team,

I am applying for Cloud Automation & Platform Engineer (3167675). The posting typically asks for 2–4 years in distributed/cloud computing, software design, and programming. I have 2 years 2 months shipping Python, JavaScript, React.js, SQL, REST APIs, Docker, Kubernetes, AWS, and GitHub Actions CI/CD on production products — inside that 2–4 year band.

Java, Angular, Azure, and cloud certifications are ramps. I will relocate to Bengaluru (the posting lists relocation assistance as no; I am not asking HP to fund the move). B.Tech CSE (AI), 2020–2024.

Sincerely,

Atul Banyal
