Hiring Team

Goldman Sachs

Re: Core Risk Bengaluru Analyst, Software Engineering, role 181261

Dear Goldman Sachs Hiring Team,

I am applying for Core Risk Bengaluru Analyst, Software Engineering (181261) at Helios Business Park, 150 Outer Ring Road, Kadubeesanahalli. The posting asks for 1–3 years plus Python and SQL for ETL and data analysis. I have 2 years 2 months of production Python FastAPI, SQL, Airbyte CDC → Snowflake, and dbt marts — systematic extract/transform/load with checks on completeness and timeliness. B.Tech CSE (AI), 2020–2024.

Tableau, Alteryx, Power BI, R, Java, C++, and market-risk / regulatory reporting domain are ramps. I am not claiming a risk desk or capital-metrics background. I will relocate to Bengaluru. Full-time.

Sincerely,

Atul Banyal
