PROFESSIONAL EXPERIENCE

Software Developer — Skyach Software Solutions Pvt. Ltd.

Mohali, India

June 2024 – August 2026

- Built and maintained JavaScript/TypeScript front ends (Vue.js dashboards plus React.js/Next.js) for production products used by 1,000+ daily active users.
- Implemented reusable UI for listings, orders, and service workflows on the tree care platform; wired those views to Python FastAPI REST APIs.
- Collaborated with teammates in Git code review; documented UI/API behavior so editorial-style content and operations screens stayed consistent.
- Used Cursor for AI-assisted coding: prompt, critique, and refine generated JavaScript/Python rather than pasting unreviewed output.
- Shipped a live cryptocurrency exchange UI path on Rails APIs (PostgreSQL, wallets, Binance/Kraken) with GitHub Actions → Docker → Kubernetes.
- Led a construction management Rails product (five modules: tracking, contracts, payments, workforce, vendors) with HTML/CSS/JS-backed workflows.

KEY PROJECTS

Tree Care Platform — Vue.js, React.js/Next.js skills, FastAPI, REST

- Closest UI match: component-driven dashboards on REST APIs for multi-company buy/sell/cut workflows.

Crypto Exchange — Rails, JavaScript, PostgreSQL, Docker, Kubernetes

- Production consumer product at 1,000+ DAU; Git reviews and CI before release.

Construction Management — Ruby on Rails, PostgreSQL

- End-to-end product modules with documented designs and peer review.
