Capgemini Invent

Re: Python With Gen AI Developer, posting 1413584933, Bangalore

Dear Capgemini Hiring Team,

I am applying for Python With Gen AI Developer (1413584933). I have 2 years 2 months developing and maintaining production Python FastAPI applications, REST APIs, SQL, Git, and technical documentation. That is the Python delivery part of this role.

Proven generative-model deployment, TensorFlow, and PyTorch are ramps — I do not claim them as production work. I do use Cursor for AI-assisted coding and completed a B.Tech with an AI specialization. I prefer Bengaluru; Hyderabad or Pune are also on the posting.

Sincerely,

Atul Banyal
