PROFESSIONAL SUMMARY

Software Engineer with 2 years 2 months building and testing web applications in Python (FastAPI) plus HTML/CSS/JavaScript front ends. Ships REST APIs, database-backed pages, and documented technical designs used by 1,000+ daily active users. Uses Git, GitHub Actions CI/CD, Docker, and AWS. Applying for Accenture's Bengaluru Web Developer role (Python).

TECHNICAL SKILLS

Must-have alignment: Python, FastAPI (Python web framework), JavaScript, HTML/CSS, SQL (MySQL, PostgreSQL), Git, REST APIs

Frontend: Vue.js, React.js, Next.js

Backend: Ruby on Rails, FastAPI, RESTful APIs, microservices, Sidekiq, RabbitMQ

Data: Snowflake (OLAP), Airbyte CDC, dbt, ETL/ELT

DevOps: Docker, Kubernetes, GitHub Actions (CI/CD), AWS, Shell Script

Tools: Postman, Apidog, Openware Stack; Cursor / AI-assisted coding

PROFESSIONAL EXPERIENCE

Software Developer — Skyach Software Solutions Pvt. Ltd.

Mohali, India

June 2024 – August 2026

- Built Python FastAPI web APIs and Vue.js frontend features for a tree care platform (listings, orders, service operations), including request/response validation and MySQL models.
- Wired Vue.js dashboards to those APIs; documented endpoints and kept site/content workflows current for companies that buy, sell, and cut trees.
- Developed and maintained production Ruby on Rails web applications serving 1,000+ daily active users on a live cryptocurrency exchange (PostgreSQL, REST).
- Shipped GitHub Actions CI/CD with Docker images to Kubernetes; used Git for collaborative development and code review.
- Led a construction management web platform in Ruby on Rails with five modules: project tracking, contracts, payments, workforce, and vendor management.
- Replicated operational MySQL data into Snowflake with Airbyte CDC and dbt marts so reporting stayed off the production transaction path.

KEY PROJECTS

Tree Care Platform — Python, FastAPI, Vue.js, MySQL, JavaScript

- FastAPI + Vue.js for multi-company buy/sell/cut workflows; REST APIs, SQL models, and UI integration — the closest match to Accenture's Python web-framework + HTML/CSS/JavaScript bar.

Crypto Exchange Platform — Ruby on Rails, PostgreSQL, Docker, Kubernetes

- Production web application for 1,000+ DAU; REST APIs, Git-based CI/CD, Docker/Kubernetes.

Construction Management Platform — Ruby on Rails, PostgreSQL

- End-to-end web modules for contracts, payments, workforce, and vendors.

EDUCATION

B.Tech, Computer Science and Engineering (AI specialization)

ITM SLS Baroda University, Vadodara, Gujarat · CGPA 7.7 · 15 years full-time education

2020 – 2024
