Hiring Team

Okta — Professional Services R&D

Re: Software Engineer, Professional Services R&D — Bengaluru (gh_jid 8056119)

Dear Okta Hiring Team,

I am applying for Software Engineer, Professional Services R&D in Bengaluru. I have 2+ years building software other people have to reuse: production Rails/React features at SkyAch and a personal Node.js + React toolkit (Express services, JWT auth, REST, Jest, Kubernetes). The posting asks for Node, React, Python, and cloud/CI — those are in my day-to-day except IAM product depth, which I would learn on this team.

I like proofs-of-concept that become playbooks. I document APIs, review diffs, and can relocate to Bengaluru for the onsite model.

Sincerely,

Atul Banyal
