Hiring Team

Anteriad

Re: AI Engineer, job 5386350004, Bangalore

Dear Anteriad Hiring Team,

I am applying for AI Engineer (5386350004). The posting looks for 1–2 years plus Python and FastAPI or Flask. I have 2 years 2 months of production Python FastAPI REST APIs, SQL, Git, AWS-adjacent Docker/Kubernetes deploys, and third-party API integrations — the engineering bar. I sit at the top of a 2-year band, not a junior intern profile.

LangChain, LangGraph, RAG, vector databases, CrewAI, Google ADK, and vendor LLM APIs are ramps. I already use Cursor for AI-assisted coding and hold a B.Tech with an AI specialization. I can work in Bangalore. Full-time.

Sincerely,

Atul Banyal
