Re: Software Engineer 1 (Front End / SE1 Full stack), R-24733, Bengaluru

Dear Condé Nast Hiring Team,

I am applying for Software Engineer 1, R-24733, at MARKSQUARE Bengaluru. The posting asks for 2+ years of high-quality front-end work using React and TypeScript. I have 2 years 2 months shipping production React.js, Next.js, TypeScript, and JavaScript UIs (Vue.js is the named UI on the tree-care product) plus REST API integration and Git reviews for 1,000+ daily users.

GraphQL, SSR/RSC, and Core Web Vitals ownership are ramps. I already use Cursor as an AI-assisted coding tool and review generated code before it ships. I will relocate to Bengaluru. B.Tech CSE (AI), 2020–2024.

Sincerely,

Atul Banyal
