PROFESSIONAL SUMMARY

Software Engineer with 2 years 2 months of production Python and SQL: FastAPI REST APIs, ETL/ELT (Airbyte CDC → Snowflake, dbt marts), and data-quality checks so reporting stayed off the OLTP path. Builds systematic workflows around extract, transform, and load — not one-off spreadsheets. Applying for Goldman Sachs Core Risk Analyst, Software Engineering (181261), Bengaluru Helios Business Park. Tableau, Alteryx, Power BI, R, Java, C++, and market-risk domain are ramps.

TECHNICAL SKILLS

Must-have alignment: Python, SQL, ETL, data analysis, REST APIs, Git, performance-minded queries

Backend: FastAPI, Ruby on Rails, microservices, Sidekiq

Languages: Python, Ruby, JavaScript, TypeScript, Shell Script

Data: MySQL, PostgreSQL, Redis, Snowflake, Airbyte CDC, dbt, ETL/ELT, OLTP/OLAP

Ramps: Tableau, Alteryx, Power BI, R, Java, C++, financial markets/products, time-series / risk-capital metrics

PROFESSIONAL EXPERIENCE

Software Developer — Skyach Software Solutions Pvt. Ltd.

Mohali, India

June 2024 – August 2026

- Wrote Python and SQL for extract-transform-load: Airbyte CDC from operational MySQL into Snowflake; dbt marts for reporting that did not hit production OLTP.
- Attested to data completeness on that path — failed CDC/dbt runs were investigated and fixed so dashboards stayed timely.
- Built production FastAPI REST APIs (listings, orders, services) with request validation and MySQL models for a tree care platform.
- Integrated market-data and wallet APIs (Binance, Kraken, Ethereum/Bitcoin) on a live cryptocurrency exchange serving 1,000+ daily users — APIs and SQL, not a trading-risk desk.
- Optimized SQL and service performance where user-facing paths slowed; used Git reviews in a small product team.
- Led a construction management Rails product (five modules: tracking, contracts, payments, workforce, vendors).

KEY PROJECTS

Tree Care Analytics — Python, SQL, Airbyte CDC, Snowflake, dbt

- Closest match to the posting's Python/SQL ETL bar: systematic pipelines and data quality off OLTP.

Crypto Exchange — Rails, PostgreSQL, REST APIs

- Production APIs and SQL at 1,000+ DAU; third-party market-data integrations.

Construction Management — Ruby on Rails, PostgreSQL

- Workflow APIs for contracts, payments, and vendors.

EDUCATION

B.Tech, Computer Science and Engineering (AI specialization)

ITM SLS Baroda University, Vadodara, Gujarat · CGPA 7.7

2020 – 2024
