PROFESSIONAL SUMMARY

Software Engineer with 2 years 2 months developing, maintaining, and optimizing backend applications: Ruby on Rails and Python FastAPI REST APIs, PostgreSQL/MySQL, Docker, Kubernetes, and GitHub Actions CI/CD. Ships production features with minimal supervision for 1,000+ daily users. Applying for Capgemini Engineering's Bangalore Connectivity Backend Developer seat (posted more than a year of relevant work).

TECHNICAL SKILLS

Backend: Python, FastAPI, Ruby, Ruby on Rails, RESTful APIs, microservices, Sidekiq, RabbitMQ

Languages: Python, Ruby, JavaScript, Shell Script

Frontend (when needed): Vue.js, React.js, Next.js

Data: PostgreSQL, MySQL, Redis, RabbitMQ, SQL, Snowflake, Airbyte CDC, dbt

DevOps: Docker, Kubernetes, GitHub Actions (CI/CD), Git, AWS

Tools: Postman, Apidog, Openware Stack; Cursor / AI-assisted coding

PROFESSIONAL EXPERIENCE

Software Developer — Skyach Software Solutions Pvt. Ltd.

Mohali, India

June 2024 – August 2026

- Developed and maintained production backend APIs (Rails + FastAPI) serving 1,000+ daily active users; owned design through delivery with Git reviews.
- Built Rails REST APIs and wallet/trading modules with PostgreSQL; integrated Ethereum/Bitcoin and Binance/Kraken APIs for deposits, withdrawals, and market data.
- Shipped GitHub Actions CI/CD with Docker images to Kubernetes so backend releases were repeatable.
- Led construction-management backend modules in Ruby on Rails: project tracking, contracts, payments, workforce, and vendors.
- Implemented FastAPI REST endpoints with MySQL models and validation for a tree care platform; connected Vue.js dashboards to those APIs.
- Replicated operational MySQL into Snowflake via Airbyte CDC and dbt so analytics did not load the OLTP path.

KEY PROJECTS

Crypto Exchange Platform — Ruby on Rails, PostgreSQL, Docker, Kubernetes

- Backend services for order matching, wallets, and liquidity APIs; CI/CD to Kubernetes.

Tree Care Platform — Python, FastAPI, MySQL

- Backend REST APIs for listings, orders, and services; SQL models; containerized delivery.

Construction Management Platform — Ruby on Rails, PostgreSQL

- Backend workflows for contracts, payments, workforce, and vendor coordination.

EDUCATION

B.Tech, Computer Science and Engineering (AI specialization)

ITM SLS Baroda University, Vadodara, Gujarat · CGPA 7.7

2020 – 2024
