

Atul Banyal

Software Engineer

Mohali, Punjab, India | +91 63518 06327 | atulbanyalreal@gmail.com

PROFESSIONAL SUMMARY

Backend-focused Software Engineer with 2+ years of experience and a B.Tech specialization in Artificial Intelligence, building production REST APIs with Python (FastAPI) and Ruby on Rails for fintech/cryptocurrency and tree care products. Designs OLTP/OLAP data architectures that keep heavy reporting queries off the production path, using MySQL for transactional workloads and replicating it into Snowflake through log-based CDC (Airbyte) for analytics and BI dashboards. Ships with Docker, Kubernetes, CI/CD, and AWS supporting 1,000+ daily active users, using Cursor and AI-assisted development to move faster.

TECHNICAL SKILLS

Languages: Ruby, Python, JavaScript, Shell Script

Backend: Ruby on Rails, FastAPI, RESTful APIs, microservices, Sidekiq

AI & Development: Cursor, AI-assisted coding workflows, Artificial Intelligence (academic specialization)

Blockchain & APIs: Ethereum, Bitcoin, Solana, TRON, Web3 APIs; Binance, Kraken, CoinMarketCap

Data & Analytics: Snowflake (OLAP), Airbyte (log-based CDC), dbt, ETL/ELT pipelines, OLTP/OLAP architecture

DevOps & Databases: Docker, Kubernetes, GitHub Actions (CI/CD), Git, AWS; MySQL, PostgreSQL, Redis, Snowflake

Tools: Openware Stack (Peatio, Barong, Finex), Postman, Apidog

PROFESSIONAL EXPERIENCE

Software Developer

June 2024 – August 2026

Skyach Software Solutions Pvt. Ltd. | Mohali, India

- Developed and maintained production Ruby on Rails applications serving 1,000+ daily active users on a live cryptocurrency exchange.
- Built Rails REST APIs and wallet/trading modules with PostgreSQL; integrated Ethereum and Bitcoin for deposits, withdrawals, and on-chain processing.
- Connected Binance and Kraken APIs for market data and liquidity; shipped GitHub Actions CI/CD with Docker images to Kubernetes.
- Designed and built Python FastAPI backend services for a tree care platform used by companies that buy, sell, and cut trees, covering listings, orders, and service operations.
- Implemented FastAPI REST endpoints with MySQL models and request/response validation for multi-company product and service workflows.
- Built ETL/CDC pipelines replicating operational MySQL data into Snowflake, moving reporting and BI workloads off the production transaction path.
- Modeled Snowflake analytics tables and dbt marts powering company dashboards and multi-year revenue aggregates for internal stakeholders.
- Defined API contracts and backend business logic exposing FastAPI services to client applications for end-to-end tree care operations.

KEY PROJECTS

Crypto Exchange Platform

Ruby on Rails, Openware Stack, Docker, Kubernetes

- Built a multi-blockchain cryptocurrency exchange on Openware Stack supporting 1,000+ daily active users with secure onboarding and accounts.
- Engineered real-time order matching and trading flows, and integrated 2+ external exchange APIs for liquidity across trading pairs.
- Implemented wallet and settlement modules on PostgreSQL with Ethereum and Bitcoin integrations for deposits, withdrawals, and on-chain processing.

Tree Care Platform & Analytics Pipeline

Python, FastAPI, MySQL, Airbyte CDC, Snowflake, dbt, Docker

- Architected FastAPI backend services for multi-company tree buy/sell/cut workflows, modeling MySQL schemas for listings, orders, service appointments, and invoices with typed request/response validation.
- Separated transactional and analytical workloads across two stores: MySQL (OLTP) serving FastAPI writes in milliseconds, replicated into Snowflake (OLAP) by Airbyte log-based CDC (ROW binlog, GTIDs) without adding query load to the operational database.
- Modeled staging and mart layers in dbt, serving pre-aggregated results to API endpoints instead of scanning five years of orders per request; kept warehouse reads off the hot path with caching and a thread-pooled connector.

EDUCATION

Bachelor of Technology in Computer Science and Engineering, Specialization in Artificial Intelligence

ITM SLS Baroda University | Vadodara, Gujarat | CGPA: 7.7 | 2020 – 2024
