SUMMARY

Software engineer with 2+ years shipping customer-facing UIs and REST backends (React.js, Next.js, JavaScript/TypeScript, Node.js/Express) plus production Rails. Uses Cursor daily as a velocity tool, then reviews generated code before merge. Comfortable with Docker, Kubernetes, AWS, CI/CD, MongoDB, and on-call style production follow-up. Ready to pick up Vue 3 / component-library work; the last two years have been component UIs, API integration, and identity-adjacent auth.

SKILLS MATCHED TO THIS ROLE

Front end (primary): JavaScript/TypeScript, React.js, Next.js, HTML/CSS, REST client integration, accessible/responsive UI

Back end (secondary): Node.js/Express, REST APIs, MongoDB, JWT auth, Ruby on Rails

Platform: Docker, Kubernetes, AWS, CI/CD (GitHub Actions-style pipelines), Git, Jest tests

How I work: Cursor / AI-assisted coding with human review, code review, on-call style debugging

EXPERIENCE

Software Engineer — SkyAch Software Solutions Pvt. Ltd.

Fullstack product engineering (fintech / exchange)

Jun 2024 – Aug 2026

- Built customer/admin UIs in React.js and Next.js and the REST APIs behind them, used by 1,000+ daily users — the same UI-plus-API loop this role calls 80/20 frontend/backend.
- Implemented JWT auth and identity-adjacent workflows (sessions, protected routes, API authorization) rather than leaving security as a follow-up ticket.
- Shipped on Docker/Kubernetes/AWS with CI/CD; investigated runtime failures instead of handing off after merge.
- Used Cursor as a daily multiplier (draft → review → correct) the way JumpCloud describes AI in the SDLC.

SELECTED WORK (PERSONAL)

Marketplace UI + services — Next.js, TypeScript, Node.js, Kubernetes

- Built a Next.js client against Express services (auth, catalog, orders, payments) with JWT cookie sessions and REST contracts.
- Added Jest coverage on critical APIs and deployed the stack with Docker/Kubernetes so UI and backend shipped together.

EDUCATION

B.Tech, Computer Science and Engineering (AI specialization)

ITM SLS Baroda University, Vadodara

2020 – 2024
