SUMMARY

Software Engineer with 2+ years building fullstack fintech and cryptocurrency-exchange platforms in Ruby on Rails, React.js, and Next.js. Ships production features used by 1,000+ daily active users, including blockchain integrations, trading workflows, and REST APIs. Comfortable with cloud DevOps (Docker, Kubernetes, CI/CD, AWS) and AI-assisted development (Cursor) while reviewing generated code for correctness. B.Tech in Computer Science with an AI specialization.

SKILLS

Languages: Ruby, JavaScript/TypeScript, Python, SQL

Frontend: React.js, Next.js, HTML, CSS

Backend: Ruby on Rails, Node.js/Express, REST APIs, JWT auth, MongoDB, relational databases

Cloud / DevOps: AWS, Docker, Kubernetes, CI/CD, Linux, Git

Other: Blockchain integrations, payments/trading systems, Jest, data structures & algorithms, TensorFlow / computer vision

EXPERIENCE

Software Engineer — SkyAch Software Solutions Pvt. Ltd.

Sahibzada Ajit Singh Nagar, Punjab, India (crypto-exchange / fintech product engineering)

Jun 2024 – Aug 2026

- Built and shipped fullstack features for cryptocurrency-exchange and fintech products using Ruby on Rails, React.js, and Next.js, supporting 1,000+ daily active users.
- Implemented REST APIs and blockchain/trading integrations for secure, real-time exchange workflows.
- Owned containerized deployments and CI/CD using Docker, Kubernetes, and AWS so features reached production reliably.
- Used Cursor and other AI coding tools to move faster, then reviewed, tested, and refined generated code before merge.
- Worked with teammates on production issues, testing, and iterative product delivery.

PROJECTS

Event Ticketing Marketplace (personal) — TypeScript, Node.js, Next.js, Kubernetes

- Designed a microservices marketplace (auth, tickets, orders, payments, expiration) with NATS eventing, MongoDB, JWT sessions, and Stripe payments.
- Deployed services with Docker, Kubernetes, Skaffold, and an ingress; added Jest tests for core API paths.

Vision & ML projects (personal) — Python, MediaPipe, TensorFlow

- YouTube gesture controller (hand tracking → playback) plus models for customer-churn scoring and daily bike-rental demand.

EDUCATION

B.Tech, Computer Science and Engineering (AI specialization)

ITM SLS Baroda University / ITM Group of Institutions, Vadodara

2020 – 2024
