Hiring Team

Accenture

Re: Custom Software Engineer / Application Developer, Node.js — Bengaluru (ATCI-R1-S1891558)

Dear Accenture Hiring Team,

I am applying for Custom Software Engineer / Application Developer, Job No. ATCI-R1-S1891558, Bengaluru. I have two years of professional experience building custom web applications (React.js/Next.js and REST backends) plus hands-on Node.js, Express, MongoDB, and Git from a production-style microservices project. That matches the must-have skills: Node.js, REST, MongoDB, JavaScript frameworks, and code reviews.

I work independently on features, document API behavior, and participate in reviews. I hold a four-year B.Tech in Computer Science (ITM SLS Baroda University, 2024) and can relocate to Bengaluru.

Sincerely,

Atul Banyal
