Hiring Team

Amazon — IESP Merchant Tech

Re: Software Development Engineer I, IESP Merchant Tech — Bengaluru (Job ID 10511883)

Dear Amazon Hiring Team,

I am applying for Software Development Engineer I, IESP Merchant Tech (Job ID 10511883) in Bengaluru. I have 2+ years of professional software development (non-internship) in Ruby, JavaScript/TypeScript, and Python, shipping product features from loosely defined problems in an agile team. At SkyAch I owned fullstack work on exchange platforms — APIs, React/Next.js UI, and cloud deploy (Docker, Kubernetes, AWS).

To go deeper on distributed systems I built a personal ticketing marketplace: multiple services, an event bus, isolated data stores, and Kubernetes. I want to bring that combination of product delivery and systems practice to a team that builds at Amazon's scale.

Sincerely,

Atul Banyal
