Cognizant

Re: AI Customer Engineer, job 00067697574, Bangalore / Chennai

Dear Cognizant Hiring Team,

I am applying for AI Customer Engineer (00067697574). I have 2 years 2 months of production Python FastAPI REST APIs, Vue.js UI integration, Docker deployments, Git, and microservices/cloud basics — the must-have engineering bar on this posting. RAG pipelines, LangChain, Hugging Face, OpenAI APIs, and agent tools (CrewAI, AutoGen, Google ADK, Copilot Studio) are ramps. I already use Cursor for AI-assisted coding and hold a B.Tech with an AI specialization.

I can work onsite in Bengaluru (or Chennai if that is the assigned office).

Sincerely,

Atul Banyal
