Hiring Team

Deloitte USI

Re: Managed Services Engineer I — Digital Front End (Node.js & Angular), req 353054,
Bengaluru

Dear Deloitte Hiring Team,

I am applying for Managed Services Engineer I (Node.js & Angular), requisition 353054. I have 2 years 2 months of full-stack work — inside the posted 2–3 year band. Production UI is React.js/Next.js; Node.js/Express REST is from a personal multi-service project I still maintain. I am not claiming production Angular 2+; I will ramp Angular from component UI, JavaScript, HTML/CSS, and async API work.

I hold a four-year B.Tech in Computer Science and can relocate to Bengaluru (or Hyderabad / Pune / Chennai as listed).

Sincerely,

Atul Banyal
