Hiring Team

Deloitte USI

Re: Software Engineer I — Full stack engineering (Python), req 353711, Bengaluru

Dear Deloitte Hiring Team,

I am applying for Software Engineer I, requisition 353711. I have 2 years 2 months of full-stack development (posted 2–3 years): React.js/Next.js, JavaScript, HTML/CSS, REST APIs, MongoDB, Git, and AWS. Python in my portfolio is personal ML utilities, not FastAPI/Django production — I am honest about that ramp. Docker, Kubernetes, and CI/CD are already in daily use.

B.Tech Computer Science (2024). I can join in Bengaluru or the other India locations on the requisition.

Sincerely,

Atul Banyal
