Re: Senior Backend Engineer — Bangalore (Job 8736862002)

Dear GitLab Hiring Team,

I am applying for Senior Backend Engineer in Bangalore. I am not a 5-year staff engineer. I am applying because the posting welcomes varying experience and because my last two years match the work: Ruby on Rails APIs, tests, production follow-up, reviews, and Cursor used with judgment — for 1,000+ daily users.

I have practiced bounded services (auth, orders, payments, expiration jobs on Kubernetes) as a personal project, not as GitLab-scale architecture. I write things down, work asynchronously, and can relocate to Bengaluru. If you need Intermediate instead, I have also applied to 8736877002.

Sincerely,

Atul Banyal
