

Atul Banyal

Python Developer | FastAPI · REST APIs · SQL · Git · AI-assisted coding

Mohali, Punjab, India · Open to Bengaluru / Hyderabad / Pune

+91 63518 06327 · atulbanyalreal@gmail.com · linkedin.com/in/atul-banyal-6629a2185

PROFESSIONAL SUMMARY

Software Engineer with 2 years 2 months developing and maintaining Python applications (FastAPI REST APIs, SQL, documentation) alongside Rails backends. Collaborates with product stakeholders, writes technical notes, and ships through GitHub Actions CI/CD. Uses Cursor for AI-assisted development. B.Tech CSE with Artificial Intelligence specialization. TensorFlow, PyTorch, and generative-model fine-tuning are ramps — not claimed as production ML engineering.

TECHNICAL SKILLS

Must-have alignment: Python, FastAPI, REST APIs, SQL, Git, application documentation, stakeholder delivery

Languages: Python, Ruby, JavaScript, Shell Script

Frontend: Vue.js, React.js, Next.js

Data: MySQL, PostgreSQL, Redis, Snowflake, Airbyte CDC, dbt, ETL/ELT

DevOps: Docker, Kubernetes, GitHub Actions (CI/CD), AWS

AI (honest): Cursor / AI-assisted coding; academic AI specialization. TensorFlow, PyTorch, generative model training — ramp

PROFESSIONAL EXPERIENCE

Software Developer — Skyach Software Solutions Pvt. Ltd.

Mohali, India

June 2024 – August 2026

- Developed and maintained Python FastAPI applications for a tree care platform: REST APIs, MySQL models, validation, and Vue.js UI integration.
- Documented API contracts and kept operational workflows current for listings, orders, and service operations.
- Collaborated across product modules (exchange, construction, tree care) to gather requirements and ship reliable backend changes.
- Built Rails REST APIs and PostgreSQL wallet/trading modules for a cryptocurrency exchange used by 1,000+ daily active users.
- Shipped GitHub Actions CI/CD with Docker to Kubernetes; used Git for reviews and release notes.
- Implemented Airbyte CDC from MySQL into Snowflake with dbt marts for analytics (data preprocessing for reporting, not deep-learning training).

KEY PROJECTS

Tree Care Platform — Python, FastAPI, Vue.js, MySQL

- Production Python web services and UI; closest match to “develop and maintain Python-based applications.”

Crypto Exchange — Ruby on Rails, PostgreSQL, Docker, Kubernetes

- High-traffic product APIs; CI/CD; stakeholder-driven feature delivery.

Construction Management — Ruby on Rails, PostgreSQL

- Five business modules with documented workflows for contracts, payments, and vendors.

EDUCATION

B.Tech, Computer Science and Engineering (AI specialization)

ITM SLS Baroda University, Vadodara, Gujarat · CGPA 7.7

2020 – 2024
