PROFESSIONAL SUMMARY

Software Engineer with 2 years 2 months designing, developing, testing, and debugging object-oriented Python applications (FastAPI) and PostgreSQL-backed services used by 1,000+ daily users. Ships documented designs, code reviews, and verification before release. Applying for GE Vernova Software Engineer, Hyderabad (R5052607). Core Java, IEC-61850, HVDC, and embedded hardware integration are ramps.

TECHNICAL SKILLS

Must-have alignment: Python, object-oriented programming, PostgreSQL, software development lifecycle, Agile/Jira-style delivery, debugging

Backend: FastAPI, Ruby on Rails, REST APIs, microservices, Sidekiq

Data: MySQL, Redis, Snowflake, Airbyte CDC, dbt; SQL

DevOps: Git, GitHub Actions (CI/CD), Docker, Kubernetes, AWS, Shell Script

Frontend: Vue.js, React.js, Next.js, JavaScript

Ramps: Core Java, IEC-61850, HVDC systems, embedded/hardware integration, Timeseries DBs, MongoDB

PROFESSIONAL EXPERIENCE

Software Developer — Skyach Software Solutions Pvt. Ltd.

Mohali, India

June 2024 – August 2026

- Designed, developed, tested, and debugged object-oriented Python (FastAPI) applications for a tree care platform: REST APIs, MySQL models, request validation, and Vue.js UI.
- Worked with PostgreSQL on a live cryptocurrency exchange (Rails REST APIs, wallets, order matching) serving 1,000+ daily active users.
- Participated in code reviews and documented software designs, API contracts, and test/release steps so peers could reproduce environments.
- Performed verification before deploy via GitHub Actions CI/CD, Docker images, and Kubernetes; troubleshooted production defects from logs and SQL.
- Led a construction management Rails product (five modules: tracking, contracts, payments, workforce, vendors) on Agile delivery.
- Academic AI specialization plus Cursor for AI-assisted coding — not claiming production ML model training or embedded firmware.

KEY PROJECTS

Tree Care Platform — Python, FastAPI, OOP, MySQL

- Closest match to GE Vernova's Python application bar: design, test, debug, document.

Crypto Exchange — Rails, PostgreSQL, Docker, Kubernetes

- Production database-backed services (PostgreSQL) with CI and container deploys.

Construction Management — Ruby on Rails, PostgreSQL

- End-to-end product modules with documented designs and peer review.

EDUCATION

B.Tech, Computer Science and Engineering (AI specialization)

ITM SLS Baroda University, Vadodara, Gujarat · CGPA 7.7

2020 – 2024
