PROFESSIONAL SUMMARY

Software Engineer with 2 years 2 months keeping production services reliable: Python automation, Docker, Kubernetes, GitHub Actions CI/CD, AWS, SQL, and Snowflake. Ships and supports APIs used by 1,000+ daily users; debugs incidents from logs and restores deploys. Applying for LSEG Engineer, Site Reliability Engineering (R0119021), Associate, Bengaluru. Terraform, Datadog, ServiceNow, Azure, and Kong are ramps.

TECHNICAL SKILLS

Must-have alignment: Python, Bash/Shell, Docker, Kubernetes, GitHub Actions (CI/CD), AWS, Snowflake, SQL, troubleshooting, automation

Backend: FastAPI, Ruby on Rails, REST APIs, microservices

Data: MySQL, PostgreSQL, Redis, Airbyte CDC, dbt, ETL/ELT

Frontend: Vue.js, React.js, Next.js, JavaScript

Ramps: Terraform, Jenkins, Datadog, OpenTelemetry, BigPanda, Kong API Gateway, Azure, Cosmos DB, ServiceNow, ITIL, formal SLO/SLI ownership

PROFESSIONAL EXPERIENCE

Software Developer — Skyach Software Solutions Pvt. Ltd.

Mohali, India

June 2024 – August 2026

- Maintained CI/CD with GitHub Actions: tests, Docker image builds, and Kubernetes deploys for a live cryptocurrency exchange (1,000+ DAU).
- Automated operational tasks in Python and Shell (API jobs, data replication, deploy scripts); troubleshoot failed deploys and API/SQL incidents.
- Supported the Snowflake data platform path: Airbyte CDC from MySQL OLTP into Snowflake, dbt marts for reporting off the production transaction path.
- Worked with product and engineering teammates to keep REST APIs (FastAPI + Rails) available: logs, roll-forward fixes, and documented run steps.
- Used AWS alongside containers; not claiming Azure, Terraform IaC, or Datadog dashboards as production tools.
- Built FastAPI + Vue.js tree-care services and a five-module Rails construction platform — still shipping, not only operating, the software.

KEY PROJECTS

Crypto Exchange — Docker, Kubernetes, GitHub Actions, AWS

- Production container path and CI/CD — closest match to LSEG's Kubernetes/Docker/GitHub Actions bar.

Tree Care Analytics — Python, Snowflake, Airbyte CDC, dbt

- Snowflake platform support plus Python automation; SQL on MySQL/PostgreSQL.

Construction Management — Ruby on Rails, PostgreSQL

- Product engineering collaboration: features, reviews, and production fixes.

EDUCATION

B.Tech, Computer Science and Engineering (AI specialization)

ITM SLS Baroda University, Vadodara, Gujarat · CGPA 7.7

2020 – 2024
