Hiring Team

Cisco

Re: Software Engineer — Bengaluru (Talent Bridge; BS + 1–3 years)

Dear Cisco Hiring Team,

I am applying for Software Engineer, Bengaluru. I have a B.Tech in Computer Science and 2 years 2 months of professional software work, which sits in the posted BS + 1–3 years band. I own features from implementation through validation: tests, log-based debugging, and confirming fixes — the loop described in the wireless full-stack posting.

I am not a C/C++ or 802.11 engineer today. Production work is web backends and UIs; Python is from personal ML/automation. I am applying to Cisco as a large product MNC where I can add wireless/networking depth on top of that engineering discipline.

Sincerely,

Atul Banyal
