Hiring Team

Amazon

Re: Software Dev Engineer I, L4, Job ID 10531567

Dear Amazon Hiring Team,

I am applying for Software Dev Engineer I, L4 in Bengaluru (10531567). Basic qualifications ask for a CS/Engineering bachelor's and 1 to 3 years as an SDE. I have B.Tech CSE (AI), CGPA 7.7, and 2 years 2 months of production Python FastAPI and Rails REST APIs, SQL, Git, and CI/CD.

The posting describes extending automation frameworks and test tools. Test automation as the primary SDET-style day job is a ramp — my production work is product APIs and deploys. I will relocate to Bengaluru. Full-time. Permanent req — not the FTC seats.

Sincerely,

Atul Banyal
