Hiring Team

Nanonets

Re: Forward Deployed Engineer, Bangalore (Ashby c3715ba7)

Dear Nanonets Hiring Team,

I am applying for Forward Deployed Engineer in Bangalore (on-site). You ask for 2+ years as a software engineer (or equivalent) plus APIs and the ability to own work end-to-end. I have 2 years 2 months of production Python FastAPI REST APIs, React.js/TypeScript, and Docker/Kubernetes deploys on live products. B.Tech CSE (AI), CGPA 7.7.

Customer-facing FDE as the day job, and RAG / agent orchestration as primary production work, are ramps. I will relocate to Bengaluru for an on-site start. Full-time.

Sincerely,

Atul Banyal
