Hiring Team

Canonical

Re: Software Engineer — App Stores, 3159992

Dear Canonical Hiring Team,

I am applying for Software Engineer — App Stores (3159992). The JD asks for professional proficiency in public-facing APIs in Python (Golang optional). I have 2 years 2 months of production FastAPI and Rails REST APIs, PostgreSQL, Docker, and Kubernetes. B.Tech CSE (AI).

Golang and Snap Store product internals are ramps. Remote from India; travel 2–4 weeks a year is fine. Full-time.

Sincerely,

Atul Banyal
